

Python Open Libraries

openpyxl

This will allow us to READ & WRITE Excel Documents
Updating Existing Documents
Styling Cells
Using Formulas

Alpha Vantage (<https://www.alphavantage.co>)

A third Party API that allows you to gather Realtime and historical stock APIs

has a limit of 5 calls a minute (API Calls)
500 Requests per day

WEBBROWSER

Opens a browser to a specific page

Pyperclip

a python 3rd Party Library that allows you to control your system from the Python Script.

BeautifulSoup (HTML Parser)

a Python package for parsing HTML and XML documents.

I was thinking of this package instead of getting the Alpha Vantage API because the limitations on calls per day.

This could be done everyday in the morning around
